

## *Before & After: Fungal Nail Treatment (Right great toe)*

Above Pics: Topical Rx only. Bottom Pics: Oral Rx plus CN-U antifungal polish.

**Fungal Nail Journey:** All **same** person. Pics in order. Nail discoloration x 20+ yrs. Patient chose topical Rx **only** x 12 mos **without** significant change. Dr. Recommendation: Regular **Podiatrist** nail care plus oral Rx for 3 mos and **CN-U antifungal polish**. Best results started **after** using **CN-U**. Polish can only be purchased from an affiliate medical provider (like Dr. S. Griffin @ Artineli Foot Care).
